Respite Care Provider Facilities

The term **Respite** means “an interval of temporary relief or rest”. It is a chance for a caregiver to take a break. That break may be when a temporary caregiver comes into your home to care for your loved one or it may be when your loved one is temporarily cared for outside your home. Ideas for creating respite for yourself are found on the page titled **Respite Care Options**, or you may want to talk to the staff at Senior Information & Assistance about other options, including facilities which accept Medicaid and the Family Caregiver Support Program. Facilities which provide care outside the home are listed below.
